Allegations:

Ordered pursuant to Texas Health and Safety Code, Sec. 574.106 that authorize to administer to me antipsychotics medication from about 1981 to 2002 at mental health facilities by the following personnel as determined by the State of Texas involuntarily without just cause. Exhibit 1

Also, having done so without patient being legally represented. The patient was not notified properly and was not incoherent to function as an adult. I did not have a history of mental illness. Exhibit 2

I am not a schizophrenia or chronic paranoid or psychotic. I'm not auditory hallucinations or paranoid delusion in any way. The origin of the case was never properly studied. Exhibit 1

The states of Mississippi and Texas have failed to apprehend a group of white people (stalkers) banded together to do harm intentional to my family and me. They are using loud speakers of some sort for the sole purpose to show me and other black people that slavery is still alive. This constitutes a violations of Amendment 13 in that slavery is prohibited by the U.S. Constitution because this is an involuntary treatment. My Civil Rights were violated according to the Civil Rights Act of 1968. Exhibit 3

We are harassed at church, stores, highways, airlines, schools, workplace, etc. My telephones are tampered and my mail is sometimes delayed. Some mail of importance I never get at all. This is an example of being retaliated against in the public and being used as insane. Exhibit 3 & 4

This is an act of racial discrimination and sexual harassment as well.

Statement of Claim:

Each time I was treated involuntarily by individuals who did not have all the facts and didn't care in my case. The hospitalization was done out of revenge, spite and jealousy. I experience mostly what other experience in having someone else speak vengeful of him or her.

I am a thirty-four year veteran public school teacher. I have a MED degree and a nice family in which many weren't comfortable with being black. I have never harmed anyone. I have worked with thousands of school children and people. These defendants have participated most of them knowingly without good cause using poor judgement for over twenty years. I haven't been taken seriously enough by these defendants to get to know the real me properly or use good judgement. Each went alone with paper work.

Exhibit 5

My former husband didn't want me to have a professional career, out of jealousy and he used others as well as he was used. This was the command followed.

The medication cause pain such as high blood pressure, swelling of the limbs and the left side has poor blood circulation or temporarily paralysis, eyes swell, etc. Also, I lost my home. I lost employment in Houston ISD as well. Exhibit 6

The defendants have continuously detained me and held me in detention for as much as a month or more at a time, unnecessarily to medicate involuntarily on such medication as Risperdal 2 MG three times daily.

I have been so shocked. For example, I didn't know many times I was going to be picked up by authorities because I may have been only talking in a way that other may disagree as to what was stated by me or written. I was taken to the hospital because someone wanted me to be there and not a medical reason. I didn't cook or he didn't like what I cooked or the way I cooked. They didn't like my personal views or sex life. I'm a victim of sexual abuse.

Relief:

I want the court to deny anyone the right to pick up any one patient or me that suffer or suffering from such hideous crime. To deny anyone accesses to paperwork that's illegal to confine or detain a person without just cause. It should be inadmissible to bring a person to a mental detention or facility without having paper work or legal documents from both parties before being admitted to a clinic.

I want my documents before coming to the hospital in advance to get legal counsel. I feel I deserve that much as a human with certain constitutional rights.

I feel I deserve just compensation for being involuntarily medicated, stressed, loss of work, family, embarrassed, belittled, etc., by people especially in Mississippi, Arkansas, and Texas. The problem has been several white people from these states want to sue for me. They want me to betray my family and friends. One white woman wants me to leave my job and family to live with her. They want me to do oral sex on white men. They tell everybody at my work I stink on some type of address system. They tell everyone I suck white men or have sucked white men. This is why they're humiliating me in the public. The bottom line they say is money.

Exhibit 7

Finally, to them I'm a little nigger girl do what we want and we'll leave you alone. My school appraisal's can detest any rumors of this nature. I've taught some tough 9-12 Special Education's students for over 19 years. The subjects I've taught include English, Math and Social Studies. I've taught regular Social Studies for over 11 years. The Special Education classes were multi-handicapped, mental retarded, learning disabled, down syndrom, etc. The class load was sometimes in the excess of 25 per class period.

These numbered years prove that just compensation is incomprehensible. I'll settle for 64 millions. My family and I have suffered tremendously. My home is still engaged in turmoil by the same group of hatred white individuals. It hasn't let up. There is no settlement for the suffering and pain.

I'm asking the court to make these states or individuals pay the court cost for this case for their negligence on my behalf.

I believe under penalty of perjury that the foregoing is true and correct.

Signed this 9th day of May, 2002.
